

The Future is Flavourful

Wednesday, 5 June 2024

Quark Flavours - Science Building III/SC353 (11:00 - 12:00)

-Conveners: Hsiang-nan Li

time	[id] title	presenter
11:00	[22] Lattice extraction of the TMD soft function and CS kernel with the auxiliary field representation of the Wilson line	Dr MORRIS, Wayne
11:30	[20] Parton Distribution Functions in the Schwinger Model with Tensor Network States	SCHNEIDER, Manuel

Thursday, 6 June 2024

Quark Flavours - Science Building III/SC353 (11:00 - 11:30)

-Conveners: Guey-Lin Lin

time	[id] title	presenter
11:00	[25] Using the magnetic equation of state to determine the curvature of the chiral phase transition line of (2+1)-flavor QCD	SARKAR, Mugdha

Quark Flavours - Science Building III/SC353 (16:00 - 16:30)

-Conveners: Anthony Francis

time	[id] title	presenter
16:00	[28] Quark flavor violation and axion-like particles from top-quark decays at the LHC	CHUNG, Fei-Tung
