

2025

(ASROC Annual Meeting)

Friday, May 16, 2025

Plenary session - International Conference Hall □□□□□□ **(1:45 PM - 3:30 PM)**

-Conveners: Kuo-Chuan Pan

time	[id] title	presenter
1:45 PM	[113] Searching for high-redshift galaxies - Ultra-blue UV continuum slopes from COSMOS-Web	Dr KIM, Seong Jin
2:00 PM	[56] Discovery of a Population of Strong Galaxy-Galaxy Lensed Faint Dusty Star-Forming Galaxies	YANG, Ting-Kai
2:15 PM	[135] Interstellar hub-filament system and the consequent star formation	LEE, Yueh-Ning
2:30 PM	[115] Linking Multi-Scale Energetics with Fragmentation in Massive Star-Forming Clump SDC40.283	TSENG, Ingrid
2:45 PM	[10] How might stellar flares energize the atmospheres of rocky exoplanets?	Prof. CHEN, Howard
3:00 PM	[176] A Bayesian View into Merger Jets: Multimessenger Constraints from GW170817, GW190425, and Short GRB Observations	LIN, En-Tzu
3:15 PM	[82] Time-Frequency Correlation of Repeating Fast Radio Bursts	YAMASAKI, Shotaro
